

KA-BAR[®] 2019

Pictured: 7509

“K’d A Bar” were the words of an Alaskan hunter, who sent a letter to Union Cutlery after a close encounter with a Kodiak bear. The hunter shot the bear, but did not kill the Kodiak. Angered, the bear charged the hunter, knocking him to the ground away from his firearm. In a desperate move, the hunter was able to free his Union Cutlery hunting knife and kill the bear. He was so thankful for the help he sent a letter to the Union Cutlery Company describing how he “K’d A Bar”.

The leadership of Union Cutlery was so impressed and honored by the hunter’s letter they adopted “KA-BAR” as a trademark and began using the mark on a number of knives.

At the beginning of World War II, the United States Marine Corps Fighting/Utility Knife was marked with the now iconic “KA-BAR” trademark. In 1952 Union Cutlery Company officially changed our name to KA-BAR®.

On December 9, 1942, Union Cutlery submitted the 1219C2, USMC KA-BAR knife pattern to the United States Marine Corps in hopes that it would become general issue to that branch of the military.

After some refinements to the original design, the USMC KA-BAR knife became so well recognized for its quality that “Kabar” became the name by which many referred to this knife pattern.

Today, the original USMC Fighting and Utility Knife remains the first choice for many men and women of service who carry it as their personal knife option.

The "Ek Commando Knives" were designed for close quarters and were quickly adopted by the US Marine Raiders, US Army Rangers, First Special Service Force and Office of Strategic Services Operational Groups. Americans have since carried Ek Commando Knives in World War II, Korea, Vietnam, Afghanistan, Iraq and countless other locations in between.

As war raged in the Pacific Theater, many Marines' equipment succumbed to the harsh conditions of jungle warfare. Exposed to salt water, rain, extreme heat and humidity, some USMC KA-BAR handles were left devastated. Enter Eugene Stone, who created a mold to cast metallic handles for the knives, whose blades were still in excellent working order. Stone cast the handles from scrap material from a variety of downed Japanese aircraft.

THE KA-BAR STORY

The KA-BAR Story is a four episode documentary covering the first 120 years of KA-BAR history.

The documentary highlights the first years of KA-BAR including many important events for KA-BAR, including a move, leadership changes, the KA-BAR name, and the creation of our most famous knife, the turbulent period from the 1960s to 1990s and the return of KA-BAR to Olean, NY in the 1990s.

Pictured: 9191-USMC

Logos and imagery are an important part of the KA-BAR® story.

From the Dog's Head - which has been used since the early 20th Century, though for unknown reasons - to the iconic North American "The Union" shield, KA-BAR® has always had a strong visual presence.

The most famous is the "Kill A Bear" logo, which illustrates an important part of how KA-BAR® got its name.

KA-BAR continues to celebrate our 120th anniversary by offering this laser engraved commemorative knife that features our world famous brand name, "KA-BAR®", a roaming bear and "The Union" shield presented in a Victorian-era style logo.

Only a 33-year veteran police lieutenant could truly understand what makes a knife effective for close-quarters defense. While serving as President and Chief Instructor of Tactical Defense Institute, John Benner continues to add to and improve his line of practical knives and accessories for law enforcement, military, and security personnel as well as civilians that look for a fast and efficient method of self-defense.

TDI LAW ENFORCEMENT HINDERER KNIVES

DOZIER DESIGNS

Pictured: 2486

TDI/Hinderer knives are a collaboration between John Benner of TDI and custom knife maker, Rick Hinderer, owner of Hinderer Knives.

Based on their experiences as a veteran Police Lieutenant and Fire Fighter/EMT, these knives are designed for real-world emergency situations and are ambidextrous.

**KA-BAR®
Lake Effect
Ice Scraper**

Ultramid® ice scraper makes short work of cleaning ice off your windshield and can be used alternately as a self-defense tool.
Blade Width: 0.938"

Item: #9906
MSRP: \$8.32

**KA-BARLEY
Bottle Opener**

Made of GFN-PA66 and featuring the traditional KA-BAR oval-shaped handle, the KA-BARLEY makes light work of prying off bottle caps.

Item: #9907
MSRP: \$8.32

**KA-BAR®
Spork**

Made from food and water approved Grilamid. Dishwasher safe.

Equipped with a fork/spoon combo and has a 2.5" plastic serrated knife in the handle. The Spork weighs 0.1 lb.

Item: #9909
MSRP: \$8.32

**KA-BAR®
Chopsticks**

Made from food and water approved Grilamid. Dishwasher safe.
Overall Length: 9.5"

Item: #9919
MSRP: \$8.32

NEW

**Backpack
Kaster**

Made from Ultramid® and measures 6.25" in length.

The handle has a hollow storage compartment. The head is where your fishing line attaches and a clamp secures your line and lure in place when not in use.

Item: #9921
MSRP: \$16.84

Sheath not included

NEW

**KA-BAR®
Attachment
System**

The KA-BAR Attachment System works with our hard plastic sheaths to make many of our knives MOLLE compatible as well as allowing for horizontal belt carry. The system includes two sets of hardware, one large and one small, to fit a variety of sheaths.

Item: #9916
MSRP: \$13.90

KA-BAR® LIFESTYLE & ACCESSORIES

KA-BAR® Playing Cards

Face cards are custom-designed with old-timey characters imagined from earlier times, including the wiley bear and the fierce hunter from which KA-BAR derived its name.

Item: #9914
MSRP: \$8.32

KA-BAR® Retro Posters

Inspired by World War II propaganda posters, these designs are perfect for your dorm, work shop, home office or man cave.

Pack features all four poster designs. Each poster measures 24" x 30".

Item: #9915
MSRP: \$20.00

Dome Presentation Case

Dimensions:
17.313" x 6.375" x 5.125"
Weight: 2.6 lb
Display any KA-BAR®
Fighting/Utility knife
up to 13".

Knife sold separately.

Item: #1431
MSRP: \$101.36

Walnut Presentation Case

Dimensions: 14.875" x 5.875"
Weight: 2.6 lb
Display any KA-BAR® up
to 13".

Item: #1437
MSRP: \$101.36

New items are noted in bold • "Weight" indicates bulk knife weight in pounds. Does not include sheath or packaging. • Blade Width is measured at widest point of blade. • Blade thicknesses noted are +/- .003 to .006. Open-made US products were measured before processing. • Cro-Van = Chrome Vanadium • SS = stainless steel • CR = Cryogenically quenched stainless steel • TPR = Thermoplastic resin CP or Clam Pack = plastic shell packaging for hanging merchandise. • BP or Blister Pack = cardboard backing with clear front for hanging merchandise.

KA-BAR® PRODUCT OVERVIEW & SIZE COMPARISON CHART

KA-BAR® PRODUCT OVERVIEW & SIZE COMPARISON CHART

KA-BAR® PRODUCT OVERVIEW & SIZE COMPARISON CHART

KA-BAR® PRODUCT OVERVIEW & SIZE COMPARISON CHART

CARE, STORAGE & SHARPENING

Care for Your KA-BAR

Wipe blades after use with a dry, soft cloth. If knives are exposed to salt water, wash with mild dish detergent, rinse with tap water, then wipe with a dry, soft cloth.

Storing

Treat blade with a light coating of mineral oil before storing in a dry area separate from its sheath. If possible, store in paper sleeve provided with the knife at purchase.

Sharpening

Keep knives sharp by touching up edges as needed. Most KA-BAR® knives can be sharpened using an Arkansas stone or commonly available sharpening system. Most knives can easily be touched up using a coarse or hard stone.

When bringing back a very dull edge, a coarse or hard stone should be used first, followed by a finer, softer stone. Knives made with D2 steel require diamond or ceramic sharpeners. Knives should at no time be sharpened on a belt sander or bench grinder. These machines ruin a factory-sharpened edge.

KA-BAR® GLOSSARY OF TERMS

1095 Cro-Van Steel

Easy to sharpen, plain carbon steel used in knife making. Proven to be one of the most popular steels used in KA-BAR® Knives.

440A Steel

A high-carbon stainless steel used in many American production knives.

American Hone

Operated in the same building as Union Cutlery. R. Emerson Brown was president.

Blister Pack

A cardboard backed clear-front packaging option that allows products to be hung on peg boards for retail merchandising.

Brown Brothers

Brothers Wallace and R. Emerson Brown are considered the founders of KA-BAR®. Brown Bros. was their first cutlery business.

Clam Pack

A clear plastic packaging option that allows products to be hung on peg boards for retail merchandising.

Cryogenic Quenching (CR)

The process of freezing blades to improve blade performance.

D2 Steel

A high-carbon, high-chrome tool steel often used for blanking dies. This steel has excellent edge holding ability but is very difficult to process.

Danforth Brown

Son of Wallace Brown. President of KA-BAR® most notably during WWII.

Epoxy Powder Coating

A coating process that protects blades from corrosion and also makes them non-reflective.

Flat Grind

A grind that tapers from the top of the blade down to the cutting edge. Also known as a "V" grind.

Frame Lock

Similar to the side lock or liner lock, except the lock is part of the handle.

Full-Length Tang or Full Tang

Extension of the blade steel that runs completely through the handle to the end of the knife

Fuller or Blood Groove

A longitudinal groove on the blade of a knife.

G10

An extremely durable material made of woven fiberglass soaked in epoxy resin, then highly compressed and baked.

Game Hook

Also known as a gut hook, this blade shape is best for opening the flesh of game.

Glass-Filled Nylon (GFN-PA66)

Material used to make sheaths. Nylon is reinforced with glass particles and other materials to provide strength and durability while still allowing some flexibility.

Grilamid FWA

Food and water approved polymer (plastic).

Guard

Also known as a hilt, is the piece of steel that separates the handle and the blade. Serves to keep the hand from slipping on the blade when cutting. Can be single or double.

Hollow Ground

The ground surface of the blade is concave. Used to create a fine cutting edge.

John Brown

Father to Wallace and R. Emerson. Also involved in their cutlery businesses.

Kraton G® Thermoplastic Elastomer

Referred to simply as Kraton® or Kraton G®, is a man made material resembling rubber that can be molded into knife handles. Provides a non-slip grip. Trademark of Kraton Polymers Group of Companies.

Liner Lock

A locking mechanism that features a tab cut out of the liner which is used as a stop to lock the blade in an open position. To close, the liner tab is pushed back to its original position.

Lock Back

A folding knife that has a lock release on the back of the handle.

Manufacturer's Suggested Retail Price (MSRP)

The price at which the manufacturer recommends retailers sell their product. Some sellers may sell above, at, or below this price. This is not determined by the manufacturer.

Micarta®

A man made material, made by layering resin and cloth. Used to make very fine knife handles. Westinghouse trademark.

MOLLE

An acronym for Modular Lightweight Load-Carrying Equipment.

Powdered Metal

A process used to make shaped metal pieces. Fine metal particles are molded under pressure and then fused under high heat. Also known as sintered metal.

Rockwell Hardness (HRC)

An industry scale used for measuring the hardness of blade steel. The higher the reading, the harder the steel. Written as HRC or RC followed by a range of numbers.

S35VN Steel

A high end stainless steel known for its edge retention and toughness.

Swedge

A faux double edge on the blade of a knife. Excellent for reducing the weight of the blade and balancing.

TPR (Thermoplastic Resin)

Thermoplastic Resin is used for making handles. On KA-BAR products like the Kukri #1249 it has a firm but still "giving" feel.

Tidioute Cutlery Company

Was created out of other failed cutlery companies. Wallace Brown would become head of the company shortly after its creation.

Ultradid®

Trade name for hard plastic-like material used to make handles and other products requiring a more rigid stability.

Union Razor

The cutlery sales company of Wallace Brown.

Union Cutlery

The name that replaced the former Tidioute Cutlery Company.

Zytel®

A glass-filled nylon material used in making handles for knives. DuPont trademark.

LIMITED LIFETIME WARRANTY

KA-BAR Knives, Inc. (the "Company") warrants, to the original purchaser of the knife only, that this knife will be free from defects in material and craftsmanship under normal use and maintenance for the lifetime of the original purchaser. This Limited Warranty does not apply to any failure of, defect in, or damage to the knife caused by neglect, normal wear and tear, or by improper use, including throwing the knife, batoning with the knife, using the blades as a can opener, chisel, pry bar, screwdriver, digging tool, or for any heavy work for which the knife was not designed.

If the knife fails to satisfy this Limited Warranty, the Company will repair or replace the knife or substitute a knife of comparable value, at the Company's option, and such repair, replacement or substitution shall constitute the sole remedy for any failure of the knife to satisfy this Limited Warranty or any implied warranty (ies) of the Company. In order to have a Limited Warranty claim evaluated by the Company, you must return the knife, at your own expense and risk, to KA-BAR Knives, Inc., at 200 Homer Street, Olean, NY 14760, attention Customer Service Department. Please include with the returned knife a brief written description of any claimed defect(s) in or failure(s) of the knife. Any returned knife determined by the Company to not be eligible for repair, replacement or substitution under the terms of the Limited Warranty will be returned to the Owner.

THE COMPANY MAKES NO EXPRESS WARRANTY OR REPRESENTATION WHATSOEVER OF OR WITH RESPECT TO THE KNIFE OTHER THAN THE FOREGOING LIMITED WARRANTY, AND ALL SUCH OTHER EXPRESS WARRANTIES ARE HEREBY EXPRESSLY EXCLUDED. ANY IMPLIED WARRANTIES OF THE COMPANY, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS, ARE LIMITED IN DURATION TO THE DURATION OF THIS LIMITED WARRANTY. THE COMPANY WILL NOT BE LIABLE FOR ANY SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, AND ALL SUCH DAMAGES ARE EXPRESSLY EXCLUDED.

Some states do not allow limitations on how long an implied warranty lasts, or exclusion or limitation of incidental or consequential damages, so the above limitations or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
